

DOOR FRAME METAL DETECTORS

Metscan® Delux

Metscan® Delux Most Reliable Latest & Economical

Our Metscan Delux DFMD Range of walk through metal detectors are designed to detect both ferrous & non ferrous metals concealed on a person in any possible manner including metals concealed in ferrite containers.

The search coil & control modules are housed in aesthetically designed door frames which easily merge in to any aristocratic/sophisticated décor.

Components of the highest quality have been employed throughout the process of assembly.

Plug in card system has been employed for ease of servicing & minimum down-time.

Our metal detectors are backed by a team of topnotch service technicians specially trained for quick service ever required throughout the country.

Salient Features:

High 'Q' tuned resonant circuit.

Detects all ferrous and Non-ferrous metals.

9 Levels to select the Low, Medium and High Sensitivity.

Audio Alarm and Visual indicator by Bar Graph.

Walk/Stop Indicator.

Control knob for initial setting with respect to immediate vicinity and environmental conditions.

PHYSICAL PARAMETERS

- | | |
|-------------------|------------------------------------------------|
| Control Unit | - Built in |
| Ramp | - Covered with synthetic carpet for long life. |
| Passage | - 1950mm x 750mm |
| Overall Dimension | - 2100mm x 825mm x 300mm |

TECHNICAL PARAMETERS

- | | |
|--------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Principal | - "Eddy Current Loss" |
| Detection | - All ferrous & non ferrous metals. |
| Power Source | - Operatable on 230 Volts AC+15%, 50Hz,50V |
| Sensitivity | - Low - Objects like Grenades.
- Medium - Objects like Pistol & Small Weapons.
- High - Objects like Watches, Keys & Coins etc. |
